

52 Flybridge

AA
ASTONDOA

The 66 Flybridge stands out for its liveability, comfort and high degree of personalisation as well as its ample freeboard that provides an internal volume that corresponds to that of a larger boat.

The trim in the form of a single window along the sides of the hull and the uncurved drop at the stern create a style that matches the latest contemporary designs for high-end yachts.

El 66 Flybridge, destaca por su habitabilidad, su confort y su alto nivel de personalización así como por su notable francobordo, lo que le permite obtener unos volúmenes interiores propios de un barco de mayor eslora.

El ribete a modo de ventana única en las bandas del casco y su caída sin curvatura en su popa lo dotan de una estética que entronca con los diseños contemporáneos más recientes en el mundo de los yates de alta gama.
